Codebook: age of householder by household income in the past 12 months

Source: City of Pittsburgh

Study description: The 2014 American Community Survey (ACS) collected income data from respondents aged 15 and over through Questions 47 and 48. "Total income" includes wages, net self-employment earnings, interest, dividends, rental income, Social Security, Railroad Retirement, Supplemental Security Income (SSI), public assistance, pensions, and other income sources.

- Neighborhood: name of the specific neighborhood the following data is collected from
- Id: number related to the specific neighborhood
- Estimate; total: amount of replies from the neighborhood
- Following columns regarding age and income range
    o It will show (for example) amount of householders under the age of 25 with an income less than $10.000, then 10.000-14.999, etc.
- Margin of error
- Estimate: claim for how many households are under that age/income category
